SECOND DESK

INTERNATIONAL ADVISORY

Home, hotel & hospitality textiles

Contract textiles for consistent service and replenishment

TEXTILES & APPAREL

AI-generated illustration | not an actual project reference

Product scope and commercial role

TECHNICAL SCOPE

- Bed linen
- Sheets and pillowcases
- Table linen
- Home and hospitality fabrics

SECOND DESK ROLE

Technical-commercial qualification, market development and manufacturer or partner coordination.

Product specification and buyer inputs

INPUTS REQUIRED BEFORE A COMPARABLE QUOTATION

- Room or contract requirements
- Fibre and construction
- Dimensions
- Laundering cycle
- Quantities and schedule

Confirm approved sample, specification revision and acceptance method before releasing volume.

Construction and selection criteria

DESIGN REVIEW POINTS

- Thread count or fabric weight as relevant
- Weave
- Seam and hem
- Dimensional stability
- Shade

Selection trade-off

Define construction and dimensions for the intended laundering environment. Review seam, finish and identity requirements.

Project drawings, tolerances and design details remain subject to the responsible supplier or engineer.

Representative material construction

AI-generated technical concept | not to scale or for fabrication

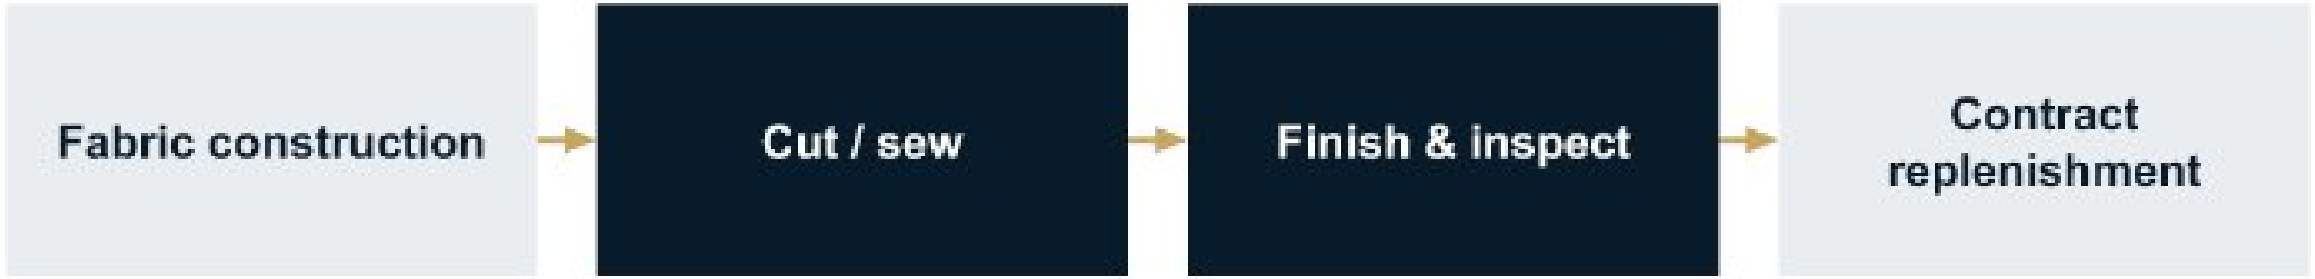
DETAILS TO CONFIRM WITH QUALIFIED SUPPLIER

- Thread count or fabric weight as relevant
- Weave
- Seam and hem
- Dimensional stability

Confirm the actual construction and dimensions from controlled supplier drawings or approved samples.

Manufacturing route and control points

Conceptual sequence for technical discussion. Actual layout and interfaces depend on the approved specification.



Approved inputs

Room or contract requirements / Fibre and construction

Batch and product verification

Final lot inspection and approved spec comparison / Pack counts

Production and processing stages

AI-generated manufacturing scene, illustrative only

TYPICAL CONTROLLED WORKFLOW

01 Fabric weaving or sourcing

02 Finishing

03 Spreading/cutting

04 Sewing

05 Pressing and packing

Inspection and quality control

TYPICAL QUALITY CONTROL POINTS

01 Dimensional and workmanship checks

02 Wash stability

03 Colorfastness

04 Strength per agreed tests

05 Lot and size verification

AI-generated sector inspection scene; illustrative only

Inspection methods, sampling, hold points and sign-off depend on the order and approved quality plan.

Sample approval and lot acceptance

Pre-production / reference approval

- Approve construction and finished sample
- Evaluate laundering performance
- Confirm item labeling
- Align stock and replenishment plan

Final inspection / receipt

- Final lot inspection and approved spec comparison
- Pack counts
- Replenishment documentation

Define sampling or approval method, approval authority and disposition of nonconforming product in writing.

Sample development and application fit

AI-generated application scene; illustrative only

APPROVAL OR SITE HANDOFF

01 Approve construction and finished sample

02 Evaluate laundering performance

03 Confirm item labeling

04 Align stock and replenishment plan

Packing, logistics and delivery

PRODUCT-SPECIFIC PACKING CHECKS

01 SKU-specific cartons

02 Identify sizes and lot

03 Moisture protection

04 Delivery by room or programme

Define the Incoterms® rule, named place, export documents, insurance responsibilities and site receipt process in the commercial agreement.

AI-generated logistics scene; illustrative only

Technical and commercial risk review

Approve sample, washing performance and assortment schedule. Confirm repeat-order shade and size tolerances.

Reference control

Compare samples, lot traceability and buyer-approved specification.

Quality evidence

Request relevant test records, rejection policy and change control.

Delivery risk

Confirm order size, production window, packing and delivery programme.

Responsibilities across the supply chain

BUYER / SPECIFIER	SECOND DESK	MANUFACTURER / FABRICATOR
Defines product, approved samples, compliance, acceptance and delivery requirements.	Clarifies the opportunity, coordinates supplier qualification and keeps technical-commercial follow-up moving.	Owns engineering or product development, production, quality evidence, pricing and contractual supply.

Supplier names, manufacturing capability, certificates, references and country-specific approvals are verified for each enquiry; no standing partner or factory is implied.

RFQ and evidence package

01	**Product definition**	Specification or tech pack, artwork where applicable, quantity and tolerance.
02	**Supplier evidence**	Capability, approved samples, relevant testing, references and traceability.
03	**Commercial offer**	MOQ, volume, lead time, pricing, sample and shipment terms.
04	**Order control**	Approval milestones, inspection plan, packaging, delivery documents.

SECOND DESK
